ABRIVAL OF VISITORS-VINNIE REAM AND REI HUSBAND-PREPARING FOR THE PRESIDENT AND GENERAL SHERMAN.

WEST POINT, June 11, 1878. The trains and boats have left numbers of visitors at West Point to-day. Relatives and friends of the first class are many among them, for this is a proud time for the graduates who are soon to exchange the gray

We've not much longer here to stay,
for in a wock or two
We'll bid farewell to "Cadet Gray,"
And den the "Army Blue,"
is the song that is popular with the young fellows
who are at the end of their four years' probation, togesher with its chorus:-

Army Blue, Army Blue,
We'll don the Army Blue,
We'll the larveel to "Cades Gray,"
And don the Army Blue!
At the same time there arrive by every Northern
and Southern conveyance a band of fresh youngsters

It is well known that mapy a class Has passed this place of lame; But the Piebes of '78 surpass All others that ere came.

orightened this afternoon and it looks as though there would be a clear sky for to-merrow night's ball and the next day's exercises.

The drill at hall-past five this evening was the sea coast battery drill—a performance by the cadets with the fitteen-inch Columbiad and its younger for-inch brother buildogs on the north shore. To see the boys in their tight coars, white trowsers, forage caps and buckskin gloves manipulating these heavy pieces of ordinance is worth many a day's travel. It takes fourteen cadets to man the big Thunderor, and more would be required in actual service. A fifteen-inch minon is the next to the largest in the service. The practice charge of powder for it is fifty pounds; the service charge 100 pounds. The shell with which it is loaded is hoisted to its muzzle by a derrick, and its carriage, swab and other appurtenances are en a colossal scale. The cadets looked from the heights like little third the state of them arese and shut out the sky it seemed a terribic plaything indeed.

Among the arrivals at the West Point Hotel to-day were Legienant and Mrs. Hoxie (née Miss Vinnio Ream), of Washington.

To morrow the President, General Sherman, the Secretary of War and General Sheridan are expected, together with a crowd of other guesta.

The cadets were examined this meering in navigation, marine engines, electricity, French and English. In the afternoon they were exercised in zeamanship on board the United States ship Macedonian. They bent and unbent sails and took down the yard and sails. It was an interesting sight to see ever one hundred midshipmen on the yards, and in the rigging at once furing sail, while fifty or more were below on deck maning the ropes. They set the sails from the royals to the courses in about six minutes. The practice throughout was creditable. The usual dress parade of the battalion followed.

COLUMBIA COLLEGE ALUMNI.

A special meeting of the Alumni Association of Columbia Coilege was held last night at Delmonico's, to welcome the graduating class. A deputation from the latter was present, as were also a number of graduates not members of the association. The meet-ing was called to order by the Vice President, Frederic Depoystor. Professor Stillman and ex-Judge Mitchell spoke in favor of holding monthly instead of quarterly meetings, but, on being put to a vote, the resolution was lost. Ex-Judge Matchell then, in a brief address, spoke to the members of the graduating class present, giving them some good advice as to their future in the new sphere of life into which they were about to be called. After a roport of progress by the Library Committee appointed to consider the advisability of purchasing the Sterey Library, the members adjourned to the supper room where a sumptuous repast awaited them. During the discussion of the edibles a number of the members formed in excellent style many of the choice old-time cellege songs, an entertainment that called forth frequent applause from the intensers. Kev. Befrow. Fost, of Trinity Church, Wilmington, Dei, a former graduate, was next introduced and delivered an address in which he spoke in a highly eulogistic charity.

manner of Columbia College as an educational institution, and predicted for it in the not distant future a
rank equal to that now occapied by even the highest
of two older universities of Europa. He floped that the
time would come when the firepasters of the college
would be composed mannly of the Alumni. The inter
would always have the best interests of the college
deep at heart. The speaker text referred to the whipping post as used in Heraware, his adopted State, not,
he explained, to advocate its introduction into New
York, but to apelogize for its existence and show that
instead of being barbarous, as by some supposed,
it was productive of much good, it atruck
terror into the hearts of criminals. Depraved
persons, for whom prison walls had no terror,
were completely subdued by the sight of the whipping post. The statistics of the State showed that it
had a most beneficial effect in preventing crime.
Thieves and burglars hardened in sin purposely
avoided Delaware because of the dread of this institution. The address was warmly applianced, after
which the members commingled in social intercourse
and speedify the receiving adjourned.

CITY COLLEGES.

THE COMMENCEMENT SEASON OPENS-LIST OF THOSE TO GRADUATE AT RUTGERS FEMALE COLLEGE, COOPER UNION AND OTHER INSTI-

The season of commencements at the colleges propo begins to-day with the exhibition of Columbia College, or rather of the Academic Department and School of Mines, as the Law and Medical department have had their commencements. In general the medical and scientific schools in the city hold their com mencements at an earlier date than the purely aca demic and classical institutions. Preminent among the scientific institutions of learning are the schools con nected with the Cooper Union. Their commencements were held on the 31st of May, but the results of the year's tuition still remain un published. These institutions are of three kinds. The Free Night School of Science and Art is designed for the education of young men in th evenings who are otherwise employed in the day The course is one of five years, and, as a consequence but few of those who enter are able to remain in the classes until the close of the course, and thus few grad uate and receive the diploma and the Cooper medal Over three thousand pupils have attended during the year, the average attendance being nearly two thou sand. Certificates of proficiency are given to those who have attended the class and passed a satisfactor; examination for the year. Six hundred and twomy

three certificates were given this year.

The School of Art for Women has been crowded to excess this year, a greater number of application having been received than ever before. The number admitted was 345, more than six hundred application. being postponed for want of room. The school is di vided into five departments-frawing, painting, pho tography, wood engraving and normal teaching. The bject of such justruction is to put an independent employment in the hands of every student. In many cases this is commenced when the pupil is still under instruction. The amount earned this year by pupils in the Woman's Art School was \$10,802 06. There were sixteen graduates in the Drawing Department, whose names are given below. Candidates for entrance into this, as well as the other schools of the Cooper Union, may as worked the other schools of the Cooper Union, may apply at all times, but their examination does not take place until the fail. The rooms of the Engraving Department are open to the students all summer. The work they are employed upon is principally book engravings and commercial plaies for advertisements. In the School of Telegraphy the course is only six months, during which time the students fully master the science.

HOME FOR INCURABLES.

TWELFTH ANNIVERSARY OF ITS FOUNDATION-

CONDITION OF THE INSTITUTION. The twelith anniversary of the Home for Incurables was held yesterday at Fordbam. Notwithstanding the threatening character of the weather there was large attendance of friends of the institution from New York, a great many of whom were indies. The anniversary exercises were held in the second story hall of the handsome new building which crowns the hill miaway between Tremont and Fordham. About half-past three the exercises began with the president, Mr. Benjamin H. Field, in urer, read his report which showed a balance on hand from last year of \$2,437 89. The total amount of receipts for this year is \$34,768 40; dis pursements, \$32,058 17; total amount paid in for beds \$36,726 67; donations for the erection of the north wing which includes chapel, \$25,445 19. Mr. Frederic Do Peyster read the report of the Board of Managers, in which it was shown that there are at present sixty-five persons in the Home, twemyfour of whom are free patients. There have been a great many applications, more than there were accommodations for. With the new wing there will be room for seventy more patients. The report acknowledged a number of donations, among them \$100

be room for seventy more patients. The report acknowledged a number of donations, among them \$100 from Edwin Booth. Since last year the Rev. Dr. Reed, of Foughkeepsie, has been appointed chaplain. Invaluis are received regardless of age, nationality, sex or creed.

The chaplain, Rev. Dr. T. G. Reed, reported that two services were held every Sunday and one on week days. That forty-three of the invalues were communicants, and that he had buried four.

The Rev. Mr. Couriney, of St. Thomas' Church, was introduced and made a lew remarks, in which he spoke of the suffering of the inmutes of the institution. The mystery of suffering is almost nothing as we see it on all adea, said he, for there is hope, but to have to suffer with the consciousness that there is no relief is terrible indeed. The Rev. Mr. Browns was the next speaker. He criticised the name of the institution, as he said there had often been cures effected in it. The stev. Dr. Vermitye made a very amusing address, in which he said that he was wholly unprepared to speak, a lact which was of little consequence, he adeed, for when he has not toe has peaks, but if he has not it comes to his hearers. The Rev. Chartes Tiffany was the next speaker. He spoke of the noble institutions of chartity that show themselves to the stranger as he sporsoches New York, so that he scent he good before he learns the bad. Mr. Infany defended the name Home for Incurables on the ground that it acknowledged an unplessmant fact which they do their best to remedy.

The officers of the Home were reappointed and are as follows:—Fresident, Benjamin H. Field; Yice Presidents Martin E. Greene, William H. Guion, Treasurer, J. D. Vermitye, Merchent's National Bank, No. 42 wall street; Secretary, Henry M. McLaren, No. 110 Warren street; Superintendent, Israel C. Jones, Jr., M. D.; Matron, Xrs. Jane E.
